

TEMPLE HEALTH

PGY1 PHARMACY RESIDENCY PROGRAM

TEMPLE UNIVERSITY HOSPITAL
MAIN & JEANES CAMPUS

NMS CODES: TUH-MAIN (170913) & JEANES (170923)

HISTORY

Temple University Hospital's PGY1 Pharmacy Residency Program was first accredited by ASHP in 1969.

PURPOSE STATEMENT

The PGY1 Residency Program seeks to prepare pharmacists for a career in clinical pharmacy practice by building a strong foundation of clinical skills and knowledge. Pharmacists completing the residency program will gain training, knowledge, and confidence in providing proficient, evidence-based, compassionate care. Residents will become integral members of multidisciplinary healthcare teams that seek to optimize patient care and outcomes and will be eligible for board certification and postgraduate year two (PGY2) pharmacy residency training.

PRACTICE SITES

TEMPLE UNIVERSITY HOSPITAL (TUH-MAIN CAMPUS)

Temple University Hospital - Main Campus is one of the region's most respected academic medical centers. The 979-bed Philadelphia hospital is also the chief clinical training site for the Temple University School of Medicine. TUH is a Level 1 Trauma Center and is committed to excellence in patient care, research, and training. TUH has been recognized among the best hospitals in the region by *US News & WorldReport*.

JEANES CAMPUS

TUH-Jeanes Campus is a 176-bed community hospital located in the Fox Chase section of Northeast Philadelphia. Jeanes Campus offers state-of-the-art medical, surgical, and emergency services, providing patients with the comfort and convenience of a community hospital along with the resources of a downtown academic medical center.

TEMPLE UNIVERSITY SCHOOL OF PHARMACY

Temple University School of Pharmacy has a collegial relationship with the Health System and provides excellent opportunities and access to a strong array of faculty preceptors, as well as an exciting learning environment. Residents will have the opportunity to obtain a Teaching Certificate after completing a teaching seminar, co-precepting students during specified rotations, and teaching in clinical and didactic settings.

PHILADELPHIA, PENNSYLVANIA

Philadelphia is a city rich with history and diversity. As a center for the arts, history, dining, and sports, the city offers a breadth of cultural and recreational options to explore and enjoy.

WHY TEMPLE?

PGY1 Pharmacy Residents will have the opportunity to work in an academic tertiary care center, a community hospital, and a university setting, exposing them to a diverse constituency of patients, healthcare providers, and students. Each resident will have a primary site at one hospital campus within the Temple University Health System where their projects, staffing, and management experiences will be centered.

OPPORTUNITY

There are 5 PGY1 Pharmacy Residency positions available:

- 4 residents will complete projects, staffing, and management components at Temple University Hospital - Main Campus
- 1 resident will complete projects, staffing, and management component at Temple University Hospital - Jeanes Campus

FREQUENTLY ASKED QUESTIONS

How does the application process work?

- Although Temple University Hospital - Main Campus and Jeanes Campus are both components of the Temple University Health System, applications and interviews are completed separately.
- Prospective applicants may apply to TUH (Main), Jeanes Campus, or both sites if interested. Candidates will be contacted by each site separately to schedule an on - site interview.
- Ranking is also conducted separately for both sites, and each site will have its own NMS code.

What distinguishes one site from another?

- Temple University Hospital - Main Campus is a teaching institution and Jeanes Campus is an acute care community hospital.
- Residents have the opportunity to select from a variety of rotations available at both TUH (Main) and Jeanes Campus. However, residents are required to do their staffing, projects, and management rotation at his or her primary site.

Are the research projects assigned to you or are you allowed to choose your own topic?

- Residents select from a list of topics. These topics are designed to benefit the needs of the hospital as well as the interest of the residents.
