

VISITATION POLICY

Chestnut Hill Hospital

All approved visitors will be screened in accordance with guidelines from the Centers for Disease Control and Prevention (CDC) and Pennsylvania Department of Health (PA DOH). All visitors must wear face coverings or masks for the entire visit.

Your health, safety, and comfort are our top priorities.

Visitation will be decided on a case-by-case basis. The clinical team will decide what is in the best interest of all.

Visitation may be restricted for the following reasons:

- At the request of patient or legal guardian patient is undergoing a medical procedure
- Restrictions initiated for crisis or special situation
- Visitation privileges may be revoked at any time

Inpatient Units:

- One visitor per patient during regular visiting hours.
- Two visitors for end-of-life patients.
- Two visitors for COVID-19 positive patients at the end-of-life.
- Visitors for COVID-19 positive patients who are not end-of-life, permitted only by exception based on clinical judgment.

Emergency Department:

- One designated support person is permitted, with the exception of patients under the age of 18 in which case both parents or both guardians may be permitted.

Surgical and Outpatient Procedure Departments:

- One support person may accompany patient. Guidelines for waiting, notification post procedure and discharge will be communicated to the patient during pre-op/pre-procedure education. If patient is to be admitted after surgery, the support person will be permitted to visit for short period while patient is in recovery.

All visitors must check in and check out at the information desk in the main lobby.
